CIS 5690 - Cloud MLOps

Computer Science / Information Systems

Academic year: 2025-2026

Abstract

CloudMLOps is a three-tier AI document summarization platform deployed on AWS App Runner with PostgreSQL, CI/CD, and admin MLOps features.

Live deployment URLs

- AWS production UI: <https://asqmhsdws.us-east-2.awsapprunner.com>
- AWS production API: <https://p3jivcdmbf.us-east-2.awsapprunner.com>
- Health check: <https://p3jivcdmbf.us-east-2.awsapprunner.com/health>
- Swagger API docs: <https://p3jivcdmbf.us-east-2.awsapprunner.com/docs>
- ReDoc API docs: <https://p3jivcdmbf.us-east-2.awsapprunner.com/redoc>
- GitHub repository: <https://github.com/nitya200/CloudMLOps>

Testing & results

171 pytest cases; production health endpoint reports database connected; AWS URLs listed above.

Conclusion

The project meets academic goals for architecture, AI integration, cloud deployment, and automated quality checks.
